Agricultural Projects & Practices > Cropland Water Savings

CREP acres enrolled in Bingham County aid in reducing consumptive use of groundwater on cropland in the Eastern Snake River Plain. ISWCC staff work with each participant to prepare conservation and seeding plans for establishing and maintaining conservation cover for the 15 year contract period. This area includes North, Central, and South Bingham Conservation Districts. In FY 2019, there are currently 56 active contracts on 6,398 acres.

Key Accomplishments/expenditures are cumulative amounts for Bingham County. See the aggregated CREP project listed under "Conservation Reserve Enhancement Aggregated from 2006 – 2019 (CREP)" for a breakdown of all program funding.
