Clear Creek Private Bridge (Idaho CD)

Program	Riparian Improvements
Lead Implementer	Idaho County Conservation District
Funders	Idaho Water Resources Board, Private Party, Unknown
Other Organizations	Idaho Soil and Water Conservation Commission
Project Primary Contact	Stefanie Hays (stefanie.hays@id.nacdnet.net)
Project Stage	Implementation
Duration	2021 - 2022

Natural Resource Projects & Practices > Riparian Improvements

The Clear Creek Private Bridge Project will repair damages to the private bridge from the 2019 flood events in Clear Creek in Idaho County, Idaho. In addition, the project will restore stabilization to the bank below the bridge. The total length of stream restoration is 1,000 feet. These mitigation efforts will finally address the flood damages that have been pending for the past two years. The project is located on Clear Creek approximately 11 miles Southeast of Kooskia, Idaho.

Tracker tells stories at a broad-brush level. Individual project performance measures and expenditures should not be relied upon for complete and total accuracy and should be confirmed with a project's lead implementer. Project locations subject to confidentiality provisions under state and federal law specify the location of a local conservation district or USDA service center office.
