

RCPP: Camas Prairie Soil Health Implementation Project (Lewis CD)

Program	Soil Health Implementation
Lead Implementer	Lewis Conservation District
Funders	U.S. Natural Resources Conservation Service
Other Organizations	Idaho County Conservation District, Idaho Soil and Water Conservation Commission
Project Primary Contact	Karol Holthaus (Lewisscd@outlook.com)
Project Stage	Implementation
Duration	2019 - 2022

Agricultural Projects & Practices > Soil Health Implementation

The purpose of this project is to establish a partnership framework for cooperation between NRCS and the District on activities that involve implementation of conservation activities on eligible lands for public and private benefits on the Camas Prairie. The partners agree to address the following resources concerns: soil quality, water quality, soil erosion, and degradation of plant conditions.

Technical Assistance hours are captured in the combined TA request for Lewis, Idaho and Clearwater districts. Hours specific to this project are: FY20 18 hours; FY19 57 hours; FY18 61 hours.

Key Accomplishments

- Landowner Site Visits: 4

Project Themes

- Agricultural Lands
- Soils

Gully erosion

Tracker tells stories at a broad-brush level. Individual project performance measures and expenditures should not be relied upon for complete and total accuracy and should be confirmed with a project's lead implementer. Project locations subject to confidentiality provisions under state and federal law specify the location of a local conservation district or USDA service center office.
