Project Stage	Deferred	Duration	2016
Estimated Total Cost	\$8,000.00	Secured Funding	\$20,400.00
No Funding Source Identified Yet	(\$20,400.00)	Targeted Funding	\$8,000.00

Education and Outreach > Events, Tours, Workshops, and Conferences

Lake Assist is a grassroots educational program sponsored by the district and developed out of the TMDL for Near Shore Waters of Lake Pend Oreille. Its mission is to protect water quality in Bonner County through education and on-the-ground activities. The program participates in many activities incl. teaching at events, consulting with weed officials and state Dept. of Ag officials on noxious weeds (terrestrial and aquatic), consulting on urban development with agencies and local government regarding water quality and quantity, and consultation with private and public shoreline landowners and best management practices to maintain water quality

Tracker tells stories at a broad-brush level. Individual project performance measures and expenditures should not be relied upon for complete and total accuracy and should be confirmed with a project's lead implementer. Project locations subject to confidentiality provisions under state and federal law specify the location of a local conservation district or USDA service center office.
